Skilled at evaluating workflows and identifying opportunities for automation and process improvement.

Problem Solving: Systematic approach to diagnosing issues and implementing effective solutions.

Data Analysis & Reporting:

Experience working with structured data, dashboards, and performance metrics.

Project Coordination: Experience collaborating in cross-functional teams and delivering projects on schedule.

KEY PROFESSIONAL EXPERIENCE

FREELANCE IT & BUSINESS SOLUTIONS

- **Freelance Technology Consultant**

(2018 – Present)

Designed and developed websites and digital solutions for individuals and small businesses. Delivered IT consulting, business process improvements, hardware and network support, Microsoft Office automation, database solutions and technical assistance. Managed complete digital projects from client requirements to deployment.

DIRPILATES MÁLAGA.

- **Co-Founder & Full-Stack Project Developer**

(2026 - Present)

Co-founded and technically built a complete digital platform for a Pilates studio, covering a responsive website, client management system, database architecture, workflow automation, SEO optimisation, and cloud deployment. Responsible for the full technical direction of the project and continuously improving the platform based on operational needs.

ACCENTURE SPAIN

- **Software Developer**

(2024 – 2026)

Contributed to the development and maintenance of enterprise software solutions for a public-sector client using React, Python, .NET, SQL and Azure. Collaborated within Agile teams to implement new features, optimise backend processes, manage databases, resolve technical issues, and ensure software quality throughout the development lifecycle.
